

Zita Vilutyte (Lithuania)

Each and every one of us is a manifestation of this single Universal Consciousness. There is profound truth in the ancient teaching that we are all One. We are all connected - not only to each other but to all of Nature and to everything in the Universe. This is the Law of One. What we do to others, we do to ourselves. The way we treat Nature, we in fact treat ourselves.

All we have to do is bring ourselves into harmony with the nature of that which we want to experience through the creative power of our thoughts. To become the master of our destiny, we must master our thoughts.
